EDUCATION

De La Salle Lipa — Lipa City, Batangas
Bachelor of Science in Computer Science — 2024 - Present

Notre Dame of Marbel University – Integrated Basic Education Department — Koronadal City, South Cotabato
Science, Technology, Engineering, Mathematics (STEM) Strand — 2022 – 2024

EXPERIENCE

Junior Phillipine Society Computer Society — 2024 – Present
Member

- Attended technology-focused seminars such as Arduino Uno and Java.
- Participated in skill-building programs, which includes the DataCamp Scholarship, to gain enhanced knowledge in AWS and Python.
- Applied learning from seminars and training sessions to strengthen technical and problem solving skills.

CERTIFICATES

Pre Security Learning Path — March 2026
Try Hack Me

- Gained practical knowlegde and experience on basic concepts of networking, computer fundamentals, linux, and basic cybersecurity concepts.
- Completed interactive lab works on web security and system vulnerabilities.
- Credential : *https://tinyurl.com/THMpresec*

AWS Cloud Practitioner (CLF-C02) Skill Track — July 2026
DataCamp

- Learned AWS cloud fundamentals, including cloud concepts, core AWS services (EC2, S3, RDS), security, IAM, pricing, billing, and cost optimization.
- Developed foundational knowledge aligned with AWS Certified Cloud Practitioner (CLF-C02) exam objectives.
- Credential : *https://tinyurl.com/DataCampCLF-C02*

SKILLS & INTERESTS

Technical Skills: Java, Python, SQL, MySQL, HTML, Linux, UI/UX

Soft Skills: Teamwork, Critical Thinking, Dedication

Tools & Technologies: IntelliJ IDEA, VS Code, Jupyter Notebook, Anaconda, Figma, Canva

PROJECTS

Hotel Reservation System (Java)

- Developed core logic for reservation and transaction management.
- Integrated user interface components and system packages.
- Managed user input and implementation of file handling to store and retrieve data using text files.

Café Order Management System (Java)

- Developed and handled core system logic for barista operations, menu management, and user functionality.
- Utilized object-oriented programming concepts such as abstraction, encapsulation, and inheritance to ensure a structured and maintainable system.
